

## WE ARE SEARCHING FOR PROFESSIONALS TO BECOME MEMBERS OF PRESERVE PROJECT EXTERNAL ADVISORY BOARD

**PRESERVE** is a European research project that develops solutions to improve the recyclability of food contact packaging. The consortium involved in **PRESERVE** is researching new approaches and uses of bioplastics, adhesives and cellulose-based biopolymers in this application sector. The materials recovered from packaging recycling will be upcycled to create secondary raw materials for cosmetic packaging and composites, thus reducing the waste generated and the impact on landfill waste.

### PROFILE

Currently developing professional activities related with the food packaging industry, at any point of the value chain: from the raw material obtention up to the end of life product, passing by its processing and commercialization.

### TASKS

Review of documentation and providing assessment on different aspects of the research on food packaging and its recycling in relation to market enablers/driving factors, market demand insights, identification of customer segments and value propositions pertinent for the customer segments recognized.

### DEDICATION

Maximum 24 hours each 6 months as average, since the signature of the agreement until the end of the project, currently expected by December 31<sup>st</sup> 2024.

### BENEFITS

- Networking with relevant members of the academy and companies operating at the international level in the food packaging sector, who are active members of the **PRESERVE** consortium.
- Prior access to relevant information about the project, its conclusions and results.
- Visibility as an expert, with high recognition by the **PRESERVE** Consortium members.

### OTHER

- The consortium will assess any potential conflict of interest during the selection process.
- The professionals invited to become members of the External Advisory Board will be required to sign a confidentiality agreement and will be procured with all the required assistance both at the administrative and technical level.
- In case travel is required for a face-to-face meeting, the expenditures would be covered by the Consortium.

If you are interested, please send an e-mail to [info@preserve-h2020.eu](mailto:info@preserve-h2020.eu), expressing your interest and providing insights of your experience.

The deadline to receive applications is 4 March 2022.
